Zamp - Okta OIDC Setup Guide

OIDC Supported Features Setup Instructions Guide to Idp Initiated Flow

OIDC Supported Features

- SP-initiated SSO (Single Sign-On)
- Idp-initiated SSO (Single Sign-On)

For more information on the listed features, visit the Okta Glossary.

Setup Instructions

- 1. Create a Zamp account for your organization
- 2. Find the Zamp OIDC application from the Okta OIN Catalog
- 3. Add The Zamp Integration to your Okta Account
- 4. After adding the integration, you will get the "Client ID" and "Client secret"

ign on methods		
he sign-on method determines ho pplication. Some sign-on methods pplication username is determined	w a user signs into and manages their credentials for require additional configuration in the 3 rd party appli d by the user profile mapping. Configure profile mapp	an ication. ing
OpenID Connect		
Client ID	1212143 (12101420/1201025d7	<u>الله</u>
	Public identifier for the client that is required for all OAuth flows.	
Client secret	•••••••	墨
	Secret used by the client to exchange an authorization code for a token. This must be kept confidential! Do not include it in apps which cannot keep it secret, such as those running on a client.	

- 5. Share the Client ID and Client Secret with Zamp via Okta OIDC Request Form
- 6. Zamp team will set up the integration and update you within 24hrs
- 7. Assign users to your Zamp Integration from Okta
- 8. Invite users from <u>Zamp Dashboard</u>
- 9. Users can now login to Zamp using this link via Okta SSO
- 10. To login, users can go to <u>https://dashboard.zamp.finance/auth/login</u> and enter their email.

Zamp will then provide Okta login option.

11. On successful validation, the user will be logged in

Guide to Idp Initiated Flow

Once the setup is complete, Users can login to Zamp via their Okta Dashboard.

First Time Login: On logging in via Idp for the first time, users need to enter their email when redirected to Zamp Dashboard. Post which the Okta login flow will take action.

Subsequent Login: When the user comes back next time, the email will be picked from cache and automatically initiate okta login.
